

### The Toruń-Bydgoszcz Harmonica Bridge

The festival with the harmonica in the leading role. But if you think that blues or country is played during the event with which the harmonica is most commonly identified, you would be wrong. Organisers want to break this stereotype and show that this is a universal instrument. Among music genres which have appeared so far, are: jazz, rock, folk, avant-garde and even the classical music.

The festival concerts are held in two neighbouring cities: Toruń and Bydgoszcz. The festival is always accompanied by workshops for young harmonica adepts led by virtuosos of this instrument.

The creator and artistic director of the Harmonica Bridge is the well-known bluesman from Toruń - Sławek Wierzcholski (Nocna Zmiana Bluesa).
